multiMAN beginner's guide. to delete the cache, there's a setting in multiMAN. Maybe your version is too old and doesn't have any cache. or you never cached anything (it's maybe only affecting games with multipart on external drive, caching the unsplit part on internet). But you can check if you have that option.

Just read the guide I  
linked, at the top of the  
guide you have  
"installation" chapter  
and link to BDEMU V2,  
and explanation to  
install it. You don't  
have to create  
anything manually.  
multiMAN is doing all  
the  
copying/joining/caching  
function by itself. Just  
run the game,
