Idiot Brain Summary | SuperSummary

Idiot Brain is a great, easily accessible introduction to neuroscience and psychology of human behaviour. If you've never read on the subject I can't think of a better place to start. Dean Burnett is writing in a light-hearted, clear style that is sure to appeal to most readers not looking for an academic tome.

Idiot Brain: What Your Head Is Really Up To by Dean Burnett

The Idiot Brain is a witty and informative look at our brains. Dean Burnett is a neuroscientist with a sideline in comedy, so he is the perfect person to explain how the human brain works - at least as far as the current research can say.
